

## PLEDGE FORM

**Help cure diabetes!** Entry fees barely cover the cost of producing the event. The real help comes from the generous pledges of participants and spectators. Diabetes affects over 16 million Americans, 4 million children, and can strike at any time. **INSULIN** helps diabetics manage their sugar level, but **IS NOT A CURE**. Without a cure, the afflicted face a strict diet, up to eight finger pricks and 4 shots a day for the rest of their lives, poor circulation, loss of vision, kidney and heart conditions, and more.

**Your pledge makes a difference!**
